School Based Dental Sealant Program - Parent Permission Form

Questions? Call Community Health Care's Dental Coordinator: 253-210-5294

Community Health Care (CHC) is a non-profit dental care provider selected by Tacoma-Pierce County Health Department to offer convenient, preventive dental services at school. With your permission a registered Dentist **will screen your child, provide oral hygiene education, tooth brushing instructions, and apply sealants and fluoride varnish**. We will notify you of our findings and help refer your child to a dentist if needed. Schedule permitting, we will return within the school year to ensure that the sealants remain intact and to complete another fluoride varnish as appropriate. *This service will not conflict with the regular 6-month check-up your child receives with their family dentist*.
